The net loss of one may be used to offset net profit of another only if they are all located in Eastlake and are for same spouse. The loss from business activity may not be used to offset earned income such as salaries or wages. Business losses cannot offset rental income unless engaged in the business of rental investments.

Items not deductible include federal, state, local or other taxes based on income including franchise tax. Capital losses from the sale, exchange or other disposition of property shall not be taken into consideration in arriving at net profits earned. Expenses incurred in the production of non-taxable income, net operating loss deduction per Federal Return, payments to partners, payments to "officers" unless included on W-2 forms, sick pay, contributions or any other items as prohibited by the Federal or State government.
